SHANGHAL AND HONGKEW WHARF COMPANY.

The annual meeting of the shareholders the above Company was held at the Shanghai Club on the lith inst., Mr. A. P. MacEwen pre-

The CHAIRMAN said - Jentlemen, the reports and accounts having been in your, hands now for some days, I propose with your permissim to take them as read. As stated in the report we are pleased to flad ourselves in a position to revert to the same percentage of dividend (17 per cent.) which was paid during rears 1891/92, and in view of the fact that the dividend for 1891 was somewhat short bonus of Tis. S par share, thus bringing the average of dividend for the past four years up to 17 per cent. We suggest setting uside the sum of Tis. 10,000 to depreciation of property abcount and carry forward the balance of Tis. 2,027. The properties on the Hougkew side are all in good working order. We shall have to do some reprire to the staging of the Postung. Wharf, but the cost will not be heavy and beyoud this we do not anticipate any extensive re-

The business at the whartes continues to In 1891 the total amount of tounsge dealt with was 660,000 tons. In 1892; 684,000 tons, in 1893 700,100 tons, and in 1894, 741,000 lons, or an average of slightly over 60,000 tons per mouth for last year. I am glad to be able to report that in dealing with this considerable mass cargo our claims are fow, and our charges compare favourably for cheapness with those any of the chief shipping centres. The socounts are presented to you in the usual form and call little remark . You will notice that the reminta at all the wharves have increased; those for Shanghai, Hongkow and Associated Wharves hamounted to Tls. 325,000, this at against Tis. 292,000 ib 1893. At the old Ningpo Wharf they were Tls. 63.000 as against The 50,000 the previous year, and at the Pootuog and Tungadoo Wharves Tla. 92.000 as against Ils. 45,000. There is an itam in the accounts of Pls. 2:800 being for cost of blowing up the Luke. The work was kindly undertaken for us by the Customs authorities and they merely charged us with the actual outlay inourced. I need bardly remind you that this was a work of necessity, The Tls. 400,000 of debentures, the issue of which was authorised las year, were all promptly applied for and allotted As regards present and future prospects I' have to state that the receipts for the past two months of the present year are fully up to those of last, but it must be borne in mind that in-the event of a continuation of hostilities between China and Japan, we cannot look for such good results in the future, as shipments are bound to fall off and stocks diminish. On the other hand, should a cossistion of hestilities recorded, and any lands and buildings provided ocour, although the volume from shipping usiness would probably increase, there would not be the -ame accumulation of stocks, as the keep moving policy which has been more or less in absyance lately through force of circumstances would doubtles again be put into full swing by our friends and supporters, but I have, bowever, little doubt hat with aireful, economical, and at the same time vigorous management, we shall be able present you with a satisfactory report for this

year. If you have any questions to sek, I will answer them with pleasure. If not, I will procood with the first resolution. Proposed by the CHAIRMAN, and seconded by Mr. McLEOD, that the report and accounts as resented be passed.

Mr. Hogo said he wished to make some re marks with regard to the item of Tls. 10,000 which the report proposed to appropriate to de preciation of property account, but before going arther hawould ask the Chairman how the proporty had been valued. The CHARRAN said-It will interest chare

holders to know that we have recently had raluation made of the whole of the Company's property by Mesers. Morrison and Gration, with the following result: - Shanghai and Hongken Wharf. Tla. 9:1,000; half share Old Ningpo John Morley, Irish Secretary, introduced a Bil WhatL Tis 201.000; half share Postung and to mend the Irish Laud Act in accordance with Tungadoo Wharves, Pla. 16 1,000; total Tla. M. .. Hood suggested that it would be better to carry the Tis. 10,000 forward instead of Dut-

ting it to depreciation account. the CHAIRMAN said the directors bad no objection to this, but it would be better for age to make a resolution to that effect. Proposed by Mr. Hogg, and seconded by Young, that the amount of Tla, 10,000, which i was proposed in the report to place to depreciation of property account, be carried forward to next account

This was carried unanimously. The original resolution was then pat, subject theabore resolution, and carried unanimously The CHAIBMAN proposed, and Mr. Scott seconded, that the directors be authorised to pay a flual dividend at the rate of Tls. 11 and a bonus (Is. 3 per share to the shareholders on th register on this date about t

Carried unanimously. Mr. Hogo proposed, Mr. Gove seconded, and was manimously carried that Mesers. A. Moneyd, James L. Soott, and E. A. Probst. i conjugation with the senior representative of Mossrs Jurdine, Matheson & Co., bu elected d rectors for the carrent war. Mr. Jackson proposed and it was seconded

w Mr Swirn that Messra. Burman and Win grove be re-appointed auditors. Carried unanimonely.

Mr. Hogg-I have two saggestions for con sideration and adoption if possible. Our post tion is solid and sound; in fact, the business is one of our Consols. It is the large contributors of business who are the backbone the concers, but there smaller men whose good will may lead to business as occasion may arise. The larger the constituency the better. At the present moment the ralue of the abares is rather larger, for the smaller holders than convenient. If the theres were smaller they could be turned over more easily, and in giew of increasing the constituency, it is a very great advantage to reduce the value of shares I have consulted many shareholders on the subject and a majurity are la favour of reducing the value of the shares from Tla. 100 to Ils 25 each. I think this is a good move to make and I think it would suit the opinion of

the shareholders if the Company could be converted into a registered limited concern. I am aure the bulk of the shareholders would be glad | tire. The CHAIRMAN said he had listened to these remarks with great interest and the director

saw no objection to the proposal to alter the number of shares, but a special meeting would have to be called and notice given setting forth the number of shares and amount of papital: H said he would take the sense of the meeting the subject and suggested that Mr. Hogg put the matter in the form of a resolution. With regard settlement provided that in case at any time it should appear that balf the capital had been lost, the Reird should convene an extraordinary meeting, and this seemed to him an ample safeguard against personal liability of shareholders.

HEALTH OF THE NAVY ON THE OHINA STATION.

The report of the health of the navy contains come fateposting from concerning the China Station: - The Truces are nomewhat disappointing. The squidron employed there during 1893 consisted of 34 vessels. The mean force; corrected for time, was 3.660, and the number of cares of disease and injury entered on the sick list during the year was 4.771, which is in the ratio of 1,303-27 per 1,000, and in an increase of 25:44 per 1,000 when compared with the preced ing year, and of 7.21 when contrasted with the average ratio of the last gix years. The number invalided was 121 being in the ratio of 32 06 per 1,000, an increase of 2.52 per 1,000 when compared with the preceding year, and of 8:17 per 1,000

in comparison with the average of the last six years. The deaths numbered 24. giving an average ratio of 6 55 per 1.000, showing a dimination, in comparison with the preceding year, of, 74 per 1,000, and an increase of 64 per 1,000 when contrasted with the average of the last six years. The average number of mon daily ineffective from disease and injury was of 500,000,000 frames (£20,000),000) for the Congo 190 37. This is at the rate of 52 01 per 1,000. and exhibits a decrease, when compared with the ment declining to sanction the aquetation of preceding year, of 12 per 1,000, and also o decrease of 12 per 1,000 in comparison with the mean ratio of the last six years. The median officer of the Rattler (Surgeon

Lawrence Bidegell) remarks with reference to the

mode of origin of some cases of enterio fever These cases are probably to be attributed to the consumption by the men of adulterated bear and mineral waters sold by the Chinese on shore, or to the use of paddy los. This is the only kind of joe obtainable at Hankow; it is gathered in winter from the shallow stagnant ponds and flooded "paidy" fields ontside the settlement, and s stored underground for use in summer. It is of course, derived from extremely impure water The resident Europeans only utilise it for place ng in joe shests outside the bottles; but I have comes to believe that the men promise it in the Chinese shops, and put it in their drinks, pecially Yokham's and Hakodate. With reference to Singipore, Staff Surgann Alexander G. P. Gipps the medical officer of the Palles. observes: "In Singapore syphilis of the Worst type is common, and in my experience it is not from assuming a protectorate over the country. inusual to come across twelve cases of true
